

March of the Living 2009

On Sunday 21 June the North Eastern Jewish Centre hosted a special presentation featuring three young members of our community who shared personal reflections of their experiences from participating in the 2009 March of the Living program. The three boys, Tal Cohen, Dean Hayden and Ashley Densham presented their experiences through a photographic PowerPoint presentation.

Following the presentation, attendees heard from Historian and Lecturer at the University of Melbourne, Deborah Mayersen who lectures on Comparative Genocide Studies, about the importance of remembering the atrocities committed during the Holocaust and how to use these shocking experiences as a means of preventing further genocide worldwide.

Old Friends return to the Centre-22 August 2009
